

Wanted - Multi Skilled HVAC Service & Maintenance Engineers

Key Integrated Services Ltd are a fast growing & dynamic provider of HVAC, Mechanical & Electrical Services & Maintenance. The company pride themselves on the high quality of their workforce & are looking for like-minded individuals to join the team.

We currently have vacancies in 2 locations for multi-skilled HVAC Service & Maintenance Engineers. The right candidates are to have experience over a wide range of systems & be able to adapt themselves to situations / equipment they may not be familiar with.

The candidate is preferred to have a mixture of gas industry commercial qualifications including Gas Safe and/or City & Guilds 2079, an understanding of DX type cooling systems, experience with split / VRF type air-conditioning and some basic water chiller knowledge.

The successful engineers will be typically working in commercial / industrial & retail environments.

Salary & Benefits:- Between 50k and 60k PA, depending upon experience (40 hour week) + overtime. Company vehicle, mobile phone, PDA, expenses, opt in to company health care, pension contributions.

We have immediate vacancies in the following locations: -

Warrington, England, working throughout the North West of England, Yorkshire and the Midlands.

Please Send your full CV to kayleigh.griffin@keyis.com in the first instance

London & The Home Counties working primarily in and around the M25, with some travel on the M3 & M4 corridors

Please send your full CV to john.frisby@keyis.com in the first instance

Please Note. Key Integrated Services do not accept 3rd party Terms & Conditions from Recruitment Companies or Consultants and also unsolicited attempts to contact either the company or its employees for recruitment purposes. We operate a preferred supplier List only.
